Parallel Sessions

Equipment

A computer will be available in each room. Presenters are requested to bring their presentation on a USB drive (PowerPoint or Pdf format).

Duration

The time available for each presentation, including discussant's comments (5 min) and general discussion (5 min), is 30 minutes.

Presenters

Presenters are invited to come to the room 5 minutes prior the start of the session, so that presentations can be copied, if not sent in advance, onto the computer before the session starts.

Each presenter will be discussing a paper.

Chairs

Chairs are invited to come in the room 5 minutes prior to the start of the session. They introduce the session and the presenters. They make sure that the time available is equally divided over presenters and guide the general discussion.

Each parallel session in the programme of the ICDE 2022 will be chaired by the last presenter of the session.

A few remarks on this important role:

1. The fundamental role is to help the presenters and the discussants to respect the time that is assigned to them, and to manage the interventions of the other participants. Each presenter will have 20 minutes, followed by 5 minutes for the discussant and another 5 minutes for the interventions of all the participants, and the replies of the presenter. It is important not to exceed the slot of 30 minutes for each paper. The chairperson will be provided with papers with 10, 5, 2 and 0 minutes left notices. The chairpersons should not hesitate to remind to other participants that they need to be concise when asking questions, and to suggest that additional exchanges can take place on a bilateral basis after the session.
2. Chairpersons should not let discussants use most of their limited time summarizing the main findings of the paper that has just been presented. Thus, they should not hesitate to push them to move immediately to the more substantive part of their discussion.
3. Some parallel sessions might have three papers while other parallel sessions scheduled at the same time have four. It is important to respect the 30-minute slot for each paper also in sessions with just three papers. This can allow participants that want to attend presentations of papers in different parallel sessions.
4. We will inform the chairpersons in case of last-minute changes in the programme. Notably, if a discussant is unable to participate, the chairperson should provide some personal feedbacks to the presenter before opening the floor to the questions from the other participants.

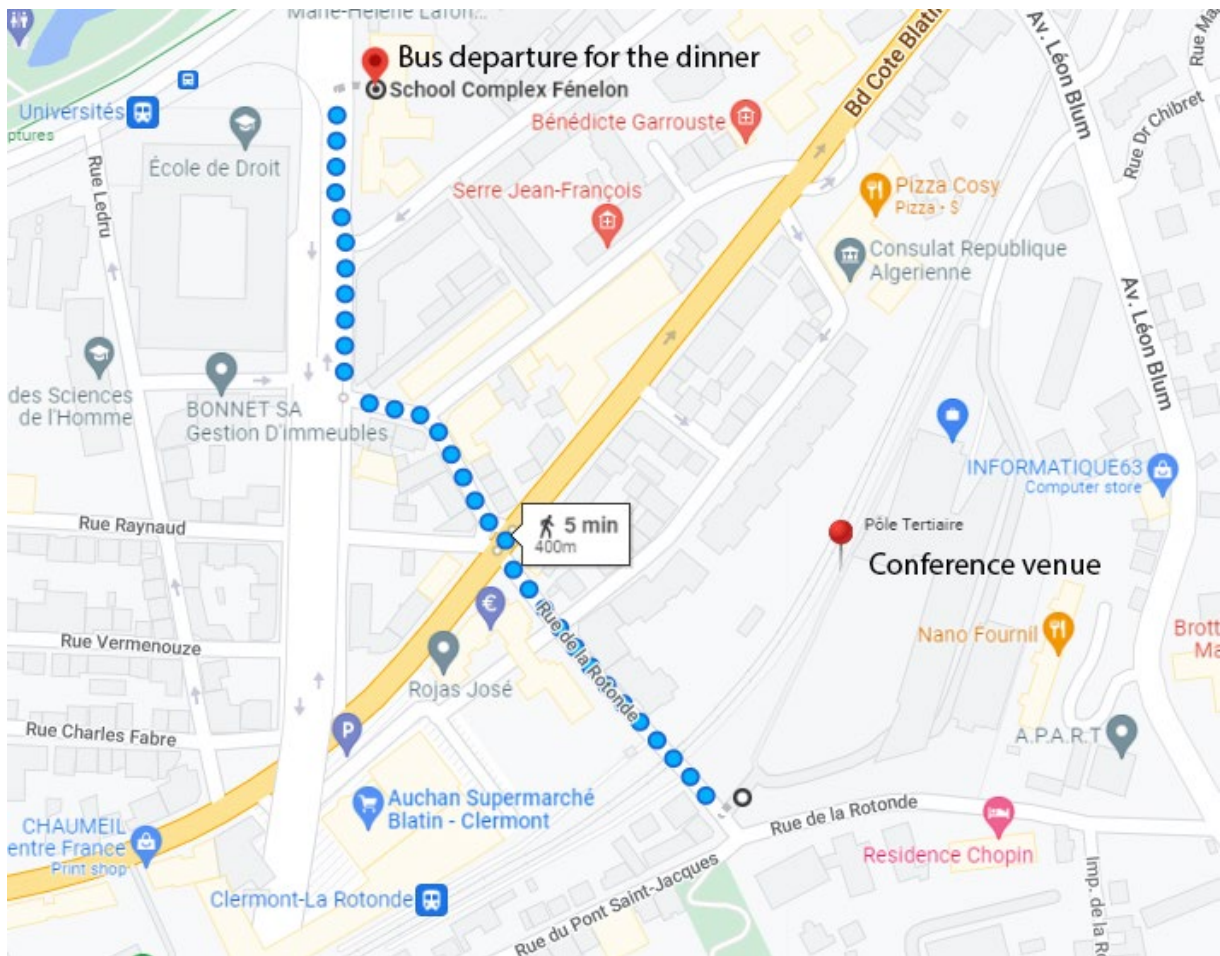

Discussants

Discussants are expected to briefly comment by focusing on specific questions in order to leave sufficient time for the general discussion with participants (avoid summarizing the paper or its main findings). The name of discussants will be provided on the program.

Posters session

The poster presentation is scheduled on Thursday, June 30th from 4:00 pm to 5:00 pm. A discussant will be designated for each poster.

Practical information

Venue and Access

Covid 19

Due to the potential risk of contamination in France, we invite participants to respect the barrier measures during their stay. Masks are not mandatory in the premises but wearing it is highly recommended. Masks will be available at the conference reception. The rooms will be equipped with hydroalcoholic gel, and self-tests can be provided. We will also provide you, if necessary, with a list of places where you can go to do a PCR or antigen test near the conference venue.

Water

During this period of heat waves, water points will be available. In order to limit the environmental impact of the conference, the use of single-use cups will be reduced. We encourage participants to limit the use of single-use cups and to come with their own refillable bottles (for participants who do not bring their own, we have a limited number of refillable bottles to give out).

Aggressive behavior / harassment / discriminations

(ii) If you are a victim or witness of discrimination or moral/sexual harassment, you can contact the ALEX unit dedicated to support and awareness of these risks at University of Clermont Auvergne:

ALEX : [+33 7 88 91 82 26](tel:+33788918226) or cellule-vssdiscriminations@uca.fr
